§ Side hits strike the side as indicated by the attack direction. For example, if an attack hits the right side, all Side results strike the right side armor. If the vehicle has no turret, a turret hit strikes the armor on the side attacked.

2D6 ROLL	EFFECT*
2-5	No Effect
6-7	Minor damage; +1 modifier to all Driving Skill Rolls
8-9	Moderate damage; -1 Cruising MP, +2 modifier to all Driving Skill Rolls
10-11	Heavy damage; only half Cruising MP (round fractions up); +3 modifier to all Driving Skill Rolls
12	Major damage; no movement for the rest of the game Vehicle is immobile.

All movement and Drug Skill Roll penalties are cumulative. However, each Driving Skill Roll modifier can only be applied once. For example, if a roll of 6-7 is made for a vehicle, inflicting a -2 modifier for being in a vehicle, and a -1 modifier for being in a vehicle, the vehicle has no additional effect. This means the maximum Driving Skill Roll modifier that can be inflicted from the Motive System Damage Table is -6. If a unit's Cruising MP is reduced to 0, the unit is immobilized. If a unit's Cruising MP is reduced to 0, the unit is immobilized. In addition, all motive system damage takes effect at the end of the phase in which the damage occurred. For example, if two units are attacking the same Combat Vehicle during the first phase of a turn, the first unit's attack will immobilize the vehicle, and the second unit's attack will not apply for the second unit. However, the -4 modifier would still apply to the second unit's attack. If a hover vehicle is rendered immobile while on a Depth 1 or deeper water tier, it sinks and is destroyed.
